

PRODUCT DATA SHEET

DEWALT® 54V XR FLEXVOLT® 305mm Mitre Saw — 2 × 6Ah

Product Overview

A professional cordless 305mm mitre saw designed for accurate cross-cutting, mitre cutting and bevel cutting. The 54V XR FLEXVOLT® platform provides high cordless performance for demanding jobsite applications. This kit is supplied with two 6Ah FLEXVOLT® batteries.

Technical Specifications

Parameter	Specification
Product Type	Cordless Mitre Saw
Blade Diameter	305 mm (12 in)
Battery Platform	DEWALT XR FLEXVOLT®
Voltage	54V XR FLEXVOLT®
Battery Capacity	6Ah
Batteries Included	2 × 6Ah FLEXVOLT® batteries
Power Source	Cordless / Battery Powered
Applications	Cross-cutting, mitre cutting and bevel cutting
Intended Use	Professional construction, carpentry, installation and workshop applications

Key Features

- 305mm blade provides a large cutting diameter for professional applications.
- 54V XR FLEXVOLT® cordless platform combines high power with jobsite mobility.
- Supplied with two 6Ah FLEXVOLT® batteries for extended cordless operation.
- Designed for accurate mitre, bevel and cross-cutting work.
- Suitable for demanding construction, carpentry and installation environments.

Important Note

This is a professionally prepared specification sheet based on the product description supplied and generally available product information. It is not an official DEWALT-issued datasheet. Exact model number, cutting capacities, dimensions, weight and other detailed specifications should be verified against the manufacturer's current regional documentation before formal tender or technical submission.
