

DeVilbiss Automotive 905014

GPG Primer Gravity Gun with Cup

Product Category: Painting & Spray Equipment | **Subcategory:** Automotive Paint Spray Guns

Product Description

The DeVilbiss GPG is a multi-purpose gravity-feed spray gun designed for automotive refinishing and body shop applications. It features a rugged anodized, drop-forged aluminum gun body, ergonomic design, lightweight aluminum controls and smooth trigger action. The GPG air cap technology is designed to provide efficient atomization across a range of automotive refinish paints and coatings, including primers.

Key Features

1	Rugged drop-forged aluminum gun body
2	Anodized body finish for durability and protection
3	Ergonomic design for comfortable handling
4	Lightweight aluminum controls
5	Smooth trigger action for controlled spraying
6	Gravity-feed configuration
7	Designed for automotive refinishing applications
8	Suitable for primers and a wide range of refinish coatings
9	High-efficiency air cap technology for atomization
10	Cost-effective multi-purpose spray gun

Product Specifications

Brand	DeVilbiss
Product / Model	GPG Primer Gravity Gun
Part / Reference No.	905014
Feed Type	Gravity Feed
Application	Automotive refinishing / body shop
Primary Use	Primer and refinish coatings
Gun Body	Drop-forged aluminum, anodized
Controls	Lightweight aluminum
Trigger	Smooth-action trigger
Air Cap	High-efficiency / HVLP-type atomization technology*
Configuration	Spray gun supplied with cup*

*Exact cup capacity, nozzle/fluid tip size, air consumption, inlet thread, operating pressure and package contents can vary by configuration. Verify these values against the manufacturer’s current 905014 specification before procurement.

Note: This datasheet is prepared as a product-information sheet from the supplied product identification and description; it is not a replacement for the manufacturer's official technical manual.
