

Roller Compactor

GI-RC660

The Grande Dual Drum Roller Compactor is engineered for high-performance compaction in roadworks, pathways, parking areas, and industrial sites. Powered by a robust diesel engine.

- High Compaction Performance
- Powerful & Reliable Diesel Engine
- Dual Drum Hydraulic Drive System
- Compact & Operator-Friendly Design

Engine	Loncin D440F- Diesel
Engine Power	9.6 HP
Exciting Force	20 kN
Start	Recoil start / Electric start
Drive System	Hydraulic drive
Drum Width and Diameter	650 / 380 MM
Vibration System	Hydraulic with automatic / electromagnetic clutch
Travel Speed	0 – 3.8 km/h
Gradeability	Up to 30%
Operating Weight	660 Kg
